

ZGW-C001

Wireless Zigbee Gateway

The ZGW-C001 Gateway provides a quick but secured path to bridge the IP-based networks and Zigbee-based networks. With its unique design topology, it is well equipped to control and provide seamless communications to up to 100 end-node devices. In conjunction with ZGW-A001 wall-mount Gateways, its scalability would be ideal for small to medium size commercial applications.

Key Features:

- Seamlessly bridge between Internet and PAN
- 12VDC / 500mA
- High interoperability in compliant to global Zigbee standards
- Start-of-the-art algorithms providing adequate communication up to 100 end node devices
- Easy commissioning, easy to use and easy to control
- Standard Zigbee OTA makes updating easy and stay current
- Scalable, Reliable and secure

Specifications	
Compatibility	Zigbee Pro
Input	5VDC / 500mA
Operating Environment	-20 - +65°C
Radio Properties	2.4GHz WIFI and ZigBee +19.5dBm Transmit Power
I/O Port	4 x 10/100 Mbps Ethernet 1 x USB 3.0
Dimensions	
Warranty	5 year

Indicator and output functions	
LED Indicator	Red (Power On)
	Yellow (Error Message)
	Green (Join Network)
RST	Reset Button
